— Business trend

— Another chapter in the Raiffeisen success story

The Raiffeisen Group announces another strong half-year result. The acquisition of Notenstein Private Bank Ltd led to significant growth in the trading and securities business and helped to diversify the earnings base. Gross profit is up considerably compared to the previous year. Group profit is CHF 332 million (-2.2%).

Business volume grows further

The Raiffeisen Group significantly expanded its business volume in the first half of 2012. Demand for mortgages remained high. The overall credit volume increased CHF 4.0 billion or 2.9% to CHF 140.2 billion. Inflows of client deposits were much stronger than in the previous year and climbed CHF 7.2 billion or 5.9% to CHF 129.4 billion. The Raiffeisen banks performed very well, achieving 3.4% growth on their own. The acquisition of Notenstein Private Bank Ltd also made a positive contribution.

Considerable income growth

The income side showed an encouraging increase of CHF 106 million or 8.4% to CHF 1,361 million. Commission and service income (+60.2%) and net trading income (+50.4%) benefited heavily from acquiring Notenstein. Interest income, by contrast, stagnated (+0.1%) under still-heavy pressure on interest margins.

The acquisition of Notenstein Private Bank Ltd led to an increase in costs; operating expenditure rose CHF 88 million or 11.7%. If the additional costs from Notenstein are factored out, operating expenditure rose CHF 12.4 million or 1.6%. The additional costs are due to an increase in staff level and the ongoing IT upgrade. Gross profit stood at CHF 521 million (CHF +18 million or +3.6%). Without Notenstein, gross profit would have been CHF 491 million, or 2.3% below the prior year period.

Low-risk credit portfolio

Depreciation stood at CHF 106 million and is much higher than in the previous year. Declining securities prices led to an amortisation requirement of CHF 22 million in strategic investments.

Raiffeisen's strategy of pursuing high-quality growth has carried over to its credit portfolio, which is still low-risk. Value adjustments, provisions and losses for credit risks were amounted to a marginal CHF 0.9 million. Group profit declined slightly by CHF 7 million or 2.2% to reach CHF 332 million.

Successful Notenstein acquisition

The acquisition of Notenstein Private Bank Ltd greatly enhanced the Raiffeisen Group's capabilities in investment advisory services and wealth management. It also broadened its earnings base, which had been heavily dependent on interest. Acquired goodwill amounts to CHF 191 million, including CHF 36 million for deferred taxes.

Raiffeisen Switzerland's acquisition of Notenstein Private Bank Ltd went off according to plan. Initially, there was a small outflow of client money, but the private bank's net new money and client numbers began rising again in June. Notenstein currently has CHF 20.8 billion in assets under management. Notenstein's C/I ratio of 68.5% reflects the private bank's efficiency.

Raiffeisen is cautiously optimistic about the remainder of the year. Despite the challenging market environment, the Group expects its annual result to be close to the prior year level.
